SENIOR ANGULAR DEVELOPER AND LEAD FRONTEND ARCHITECT

I am a professional Angular developer with 8 years of experience in developing robust Angular applications with a focus on performance optimization, accessibility, internationalization and regulatory compliance. I have 6 years of experience in leading teams, conducting code reviews, mentoring juniors and hiring new candidates. I am also a good book author. In 2024, I authored some of the most important Angular books. In addition, I am an expert in backend, devops and cloud computing, but I enjoy working with Angular, UI/UX and graphic design the most. I am very interested in integrating new technologies such as AI, AR/VR, IoT and Blockchain into my projects. I always achieve a Lighthouse score of 90+ in all my projects.
